Particulars	Wallet Recharge (In INR)		
	Plan 1	Plan 2	Plan 3
Prices for above mentioned suites can be availed basis the billing tier opted	₹ 50,000 + GST	₹ 1,00,000 + GST	₹ 3,00,000 + GST

Other terms:

1. Prices are exclusive of applicable Government levies and taxes.
2. Delivery of the service will be through APIs to be consumed by you in your application / website.
3. "Per Transaction" means every request for KYC Validation is called through the API. Charges will be levied only for requests with a successful response. Successful response means responses with status "200" or "422" from the APIs irrespective of whether a document was valid or invalid or whether records existed in the corresponding database or not.
4. There are no charges levied for API calls failing due to source's downtime or internal server errors.

Clarifications:

Pricing & Billing Structure

- We operate on a prepaid wallet system with **lifetime validity** for wallet credits.
- Only an upfront recharge is required — there are **no additional charges** such as integration, setup, or maintenance costs **on recharge above 50,000 and above**.
- We accept payments in INR and USD.

Onboarding & Support

- We provide complete onboarding support, including access to comprehensive documentation and assistance during integration.
- Our customer support is available during business hours to assist with any technical or operational queries.

Service Level Agreement (SLA)

- Our APIs are available 24/7, ensuring uninterrupted access.
- In the rare event of maintenance, prior notice is always provided to minimize any disruption.
